

REGISTERED AGENT

TucAway

Your business address, tucked away from the public.

tucaway.com

OVERVIEW

TucAway is a modern registered agent and digital document depository built for LLC founders, small businesses, and wholesale compliance providers. It assigns a real business address for state filings so your home address stays private — then digitizes every legal notice that arrives and delivers it to a secure dashboard in real time.

No more paper piling up at a PO box. No more legacy providers charging premium rates for a scanning service from 2008. TucAway is the registered agent reimaged — clean onboarding, instant document alerts, and a webhook API for partners who need to integrate at scale. Built for founders who want compliance without the paperwork drawer.

KEY CAPABILITIES

What sets it apart.

Private Business Address

A real street address assigned to your company for state filings, articles of incorporation, and legal service of process. Your home address never appears on public records.

Digital Document Depository

Every legal notice, tax form, and government communication is scanned, digitized, and filed in your secure dashboard — searchable, downloadable, and organized by date and type.

Instant Alerts

Real-time notifications the moment a new document is scanned and filed. Never miss a compliance deadline, tax notice, or legal filing again.

Partner Webhook API

HMAC-authenticated webhook endpoint for wholesale registered agent providers. Inbound document events are verified, parsed, and filed automatically — zero manual processing.

HOW IT WORKS

Three steps.

01

Sign up and add your company

Enter your company details during onboarding. TucAway provisions a private registered agent address for your state filings.

02

Legal notices arrive digitally

When documents are received at your assigned address, they are scanned, digitized, and filed to your secure dashboard automatically.

03

Stay compliant, stay private

Access your documents anytime, get instant alerts on new filings, and keep your home address completely off public records.
